- Soft-Landing and New Tenant Concierge Services
- Incentive Identification and Management Services
- Financing via New Market Tax Credits, Opportunity Zone and other programs

TexAmericas Center's Value-Added Services

Unmatched Employee Value

Variable costs at TAC are among the lowest in Texas. Here are some examples of savings:

- Lease rates for existing buildings are one quarter the rate of the Dallas metro market.
- Our reliable, industrial-grade utilities are 20-40% below the national average.
- Labor rates are 80% of the Texas average, giving you quality labor for a fraction of the cost. A recent labor study identified over 113,000 potential employees in our laborshed, giving you an abundant labor supply at a fraction of the cost of other Texas locations.
- Aggregate property tax rates for our area are 20-30% below tax rates for major metro markets in Texas, offering both a lower rate and a lower property valuation.
- TAC is not located in a municipality and therefore does not levy taxes, meaning a 100% permanent municipal tax abatement on real property and inventory.
- A valuable basket of incentives to lower cost even further.

Affordable Labor Market

- The greater Texarkana area has a rich talent pipeline, with **33 colleges and universities** within a 100-mile radius.
- The 75-mile region surrounding TAC is home to **over 86,000 enrolled students**, with **23,000 graduating per year**.
- The local higher educational community, a subset of 12 institutions, boasts **over 10,000 students** pursuing certificates and degrees.
- These institutions have a proven track record of being flexible in their training options and responsive to industry needs, a commitment to continue doing so.

Untapped Human Resources

- Population of over 1.1 million
- Labor participation rate of 56.0% (As of August 2022)
- Access to over half a million employable individuals within our laborshed
- Job growth by 7% (2017-2021)
- Many subsectors have more than doubled their workforce over the past 3 years
- Access to a pool of approximately 113,000 potential workers including the **unemployed**, **underemployed**, and **commuters** driving to jobs outside the laborshed.

Unemployment

- Unemployment rate as of August 2021 for the 75-mile radius was 6.9% compared to the US average of 5.2%
- This represents approximately 32,000 unemployed individuals in our labor market

Underemployment

- Approximately 30,000 underemployed individuals.
- Includes those with bachelor's and associate's degrees who are working in an occupation that does not require that level of education.

Commuters to Outside the Labor shed

- In 2018, 32% of employed residents commuted to jobs outside of the metro market.
- Of these, 3.4% are super commuters who drive over 90 minutes one way to work. Compared to the national average of 2.9%

Business Friendly Location

There are many options to choose from to meet your staffing needs, whether you want to fulfill staffing needs on your own, partner with the local Texas Workforce Commission (TWC) or use private sector resources.

- **Workforce Solutions Northeast Texas**

Workforce Solutions Northeast Texas (WSNET), your local TWC partner, provides free services to businesses that are considering locating to TAC. WSNET offers recruiting, screening, testing and training for potential new hires and assistance to train and retrain your skilled workforce. Space is also available for on-site interviewing, and WSNET coordinates and holds recruitment events. WSNET also offers industry specific guidance, HR consulting, outplacement services and labor market information to help you meet your goals.

- **Private Employment Agencies**

Texarkana offers numerous employment agencies to assist in staffing your project. These companies work with both job seekers and employers to match them together, finding applicants with the skills and experience to meet the needs of the employer for full time, part time and temporary positions. TAC has a relationship with several of these companies and would be happy to make an introduction.

- **TexAmericas Center 3PL**

As part of our third-party logistics division, TAC provides manpower services to tenant companies. This value-added service operates much like a private employment agency, but TAC will manage every aspect of your human resource process to eliminate this task for you.
